

MANAGEMENT OF OCCUPATION SCENARIOS FOR PLANNING

More efficient planning: online validation of your occupation hypothesis

ACCURATE, UP-TO-DATE INFORMATION AT YOUR FINGERTIPS

Plan your re-location or move projects more efficiently with our Scenario Planning Management Module. With this high-performance tool, you are now able to:

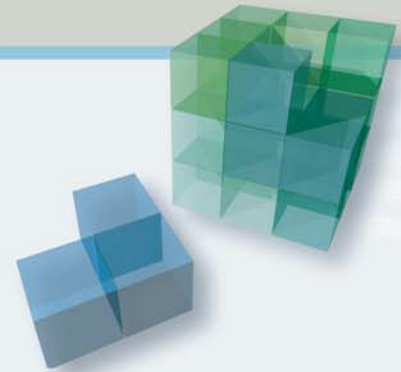

- ▶ Move an entire unit to a new wing or building including people, equipment and furniture (online)
- ▶ Have all necessary data to plan your re-location project
- ▶ Present an overview of all complexes in 3D
- ▶ Present an overview of units by floor and wings
- ▶ Provide occupation rate of existing and future buildings
- ▶ Interactively allocate units on building floors
- ▶ Create a new building using the surfaces of existing building(s)
- ▶ Simulate variations in unit surfaces/areas
- ▶ Have a presentation tool to test various hypothesis before a move or re-location
- ▶ View hypothesis in plan format without AutoCAD software
- ▶ Simulate different blocking on floor plans
- ▶ Create project phases to illustrate cascading scenarios

BENEFITS

Users have recognized the following advantages to using the Scenario Planning Management Module:

- ▶ Reduce professional services costs by testing hypothesis before a project
- ▶ Reduce time to do estimates and analyze existing data
- ▶ Produce automated scenario reports in Excel format
- ▶ Allow better quality control by validating hypothesis at beginning of project
- ▶ Allow better collaboration between decision-makers and stakeholders at all levels
- ▶ Maximize portfolio utilization - reduce occupancy costs
